MOHAMMED SABITH E

Full-Stack Developer

+91 9746791421 │ sabithchungam10@gmail.com │ [LinkedIn](#) │ [Github](#)

SUMMARY

A Full-Stack Developer with expertise in the MERN stack and knowledge of cyber security. Skilled in building efficient and secure web applications. Strong problem-solving abilities with a focus on user-friendly designs. Looking to contribute my skills to create impactful projects.

WORK EXPERIENCE

3R Creative
Full-Stack Developer

Feb 2025 - Present
UAE, Dubai (Remote)

- Developing custom trading solutions by leading the creation of efficient, intuitive systems aligned with client requirements.
- Successfully managed and fine-tuned AWS EC2 instances and S3 storage, while also deploying scalable services on platforms like Render to ensure performance and cost efficiency.
- Contributed to backend architecture by integrating real-time market data, implementing secure user authentication.
- Dedicated to building scalable, secure platforms following industry best practices for deployment, optimization, and performance.

Tecnavis Web Solutions Pvt Ltd.
Full-Stack Developer & Team Lead

Jun 2023 - Jan 2025
Malappuram, India

- Took a leadership role in creating trading solutions, overseeing the development of efficient, user-friendly systems tailored to client needs.
- Managed and optimized AWS EC2 instances and S3 storage, alongside deploying services on Render, ensuring high performance and cost-effective scalability.
- Played a key role in crafting backend systems that integrate real-time market data with robust user authentication and secure transactions.
- Focused on delivering scalable and secure solutions, adhering to best practices for deployment and performance tuning.

Hybrid Hive
Cyber Security Analyst (Internship)

Mar 2023 - Apr 2023
Bengaluru, India (Remote)

- Completed a one-month internship in Cybersecurity, gaining hands-on experience in identifying vulnerabilities and implementing security measures to protect digital assets.

PROJECTS

WBM - Whatsapp Web Messenger
Tecnavis, Malappuram

- Developed a WhatsApp Web Messenger (WBM) platform enabling admins to send bulk WhatsApp messages, including text and media, to multiple recipients simultaneously.

Aurify

Tecnavis, Malappuram

- Designed and developed an admin dashboard for Aurify, enabling spot rate management and the addition of new commodities with real-time updates.
- Implemented a chatbot integration to enhance user support and improve engagement across the platform.
- Developed an e-commerce module allowing admins to add, update, and manage products seamlessly, ensuring a streamlined workflow.
- Developed market monitoring applications, providing real-time insights into price movements and trends for commodities such as gold, silver, and platinum.
- Managed server infrastructure using AWS EC2 for application hosting and S3 for secure and scalable data storage.
- Designed dashboards with dynamic data visualization, enabling users to track market fluctuations and make informed decisions effectively.

Scratch Card

Tecnavis, Malappuram

- Developed a web application allowing users to virtually scratch cards to reveal prizes, enhancing user engagement with a gamified experience.
- Designed an admin dashboard for managing scratch cards, including functionalities to create, update, and monitor card availability.
- Enabled admins to fetch user details seamlessly through the dashboard, ensuring efficient data management and reporting.

PERSONAL PROJECT

onDrive

- Developed a web platform, where dealers can list used cars for sale and users can browse available vehicles.
- Integrated a chat feature that allows users to contact dealers directly via WhatsApp, enhancing communication and user experience.
- Developed a responsive and mobile-friendly design using React and Tailwind CSS, optimizing the platform for various devices.

SKILLS

- **Programming Languages :** JavaScript, TypeScript, Python, Java, SQL
- **Web Designing :** HTML, CSS,
- **Backend Development :** Node.js, Express.js
- **Frontend Development :** React.js, Redux, Material-UI, Tailwind CSS, Vite.js
- **Databases :** MongoDB, MySQL, Firebase
- **Cloud Services :** AWS (EC2, S3)
- **Development Tools & Libraries :** JWT, Socket.IO, Multer, Nginx
- **Cybersecurity Tools :** Burp Suite, Wireshark, Nmap, Metasploit
- **Mobile Development :** Flutter
- **Other Tools :** Git, Postman, Nginx, Figma

EDUCATION

Bachelor of Computer Applications   **Jun 2018 - Apr 2021**

University of Calicut
